Question	Réponse(s) de drQA		Score(s)	Réponse attendue	Passage correspondant dans le document (si mauvais réponse: réponse de drQA // réponse attendue)	Commentaire
	Document MIFID original	Document MIFID prétraité	MIFID Original			
When ESMA issued technical requirements and template further detailing the reporting of data?	26 October 2016	26 October 2016	3.6e+6	26 October 2016	ESMA issued, on 26 October 2016 , technical requirements and templates further detailing the reporting of ...	-
Who should report double volume cap data?	Trading venues and Consolidated tape providers	Trading venues and Consolidated tape providers	262	Trading venues and Consolidated tape providers	Double volume cap data to be reported by: Trading venues and Consolidated tape providers (upon request). Start date: September 2017. Reported to: ESMA	-
What data systematic internalisers need to report?	Instrument reference data	1) MAR/MiFIR (score: 251) 2) financial instruments reference data (score: 224)	1265	Instrument reference	Instrument reference data to be reported by: Trading venues and Systemic internalisers. Start date: Jul 2017. Reported to: ESMA	-
Which technical reporting instructions provide details on how to report data reporting for transparency?	ESMA-2016-1522	ESMA-2016-1523 and ESMA-2016-1524	9.5e+5	ESMA-2016-1523 and ESMA-2016-1524	Transaction reporting ...The technical reporting instructions (ESMA-2016-1522) provide details on how to report the data. // Data reporting for transparency and double volume cap....The technical reporting instructions (ESMA-2016-1523 and ESMA-2016-1524) provide details on how to report the corresponding data.	Ne prend pas assez en compte le contexte qui est ici placé une phrase avant la réponse et qui précise le type de données concernées (data reporting for transparency et non transaction reporting)
To whom transaction data is reported?	Investment firms	1) Investment firms 2) the NCAs	3.6e+5	NCAs	Transaction reporting to be reported by: Investment firms . Start date: 3 January 2018. Reported to: NCAs	A confondu reported by et reported to
When do NCAs plan to start data collection?	September 2017	3 Jan 2018	9.5e+5	3 Jan 2018	ESMA plans to start data collection by September 2017 . // NCAs plan to start transaction data collection by 3 Jan 2018 .	Le score de la bonne réponse est 3 fois plus petit que celui de la réponse donnée: le système a donné (à tort) plus d'importance à l'absence de précision (« data » / « transaction data ») qu'au sujet de la phrase (« ESMA / NCAs »)
Where can we find the technical reporting instructions?	at the following link	at the following link: https://www.esma.europa.eu/policy-rules/mifid-ii-and-mifir/mifir-reporting-instructions	1.1e+05	at the following link: https://www.esma.europa.eu/policy-rules/mifid-ii-and-mifir/mifir-reporting-instructions	Technical reporting instructions and XML schemas can be found at the following link: https://www.esma.europa.eu/policy-rules/mifid-ii-and-mifir/mifir-reporting-instructions	Bonne réponse mais le lien n'est pas contenu dans la réponse
Who needs to do the data reporting for transparency and double volume cap?	1) Investment firms 2) the NCAs 3) Trading venues and Consolidated tape providers	trading venues and consolidated tape providers	1) 468 2) 353 3) 205	trading venues, approved publication arrangements (APAs), and consolidated tape providers (CTPs)	Under MiFIR, trading venues, approved publication arrangements (APAs), and consolidated tape providers (CTPs) will have to report data required for the purposes of transparency and double volume cap calculations.	Le système a plus de mal lorsque la question est posée avec une formulation différente de la réponse
Who will report financial instruments reference data?	Under MAR/MiFIR, trading venues and systematic internalisers	Under MAR/MiFIR, trading venues and systematic internalisers	23170	trading venues and systematic internalisers	Under MAR/MiFIR, trading venues and systematic internalisers will have to report financial instruments reference data.	-
What should be reported by trading venues?	1) Transparency data 2) Double volume cap data 3) Instrument reference data	1) Transparency data 2) Double volume cap data 3) Instrument reference data	1) 2.7e+07 2) 1.3e+07 3) 3.45e+06	Transparency data AND Double volume cap data AND Instrument reference data	Transparency data to be reported by: Trading venues , Approved Publication Arrangements, and Consolidated tape providers. Start date: September 2017. Reported to: ESMA. ... Double volume cap data to be reported by: Trading venues and Consolidated tape providers (upon request). Start date: September 2017. Reported to: ESMA. ... Instrument reference data to be reported by: Trading venues and Systemic internalisers. Start date: Jul 2017. Reported to: ESMA.	Le système ne sait pas agglomérer des réponses situées à plusieurs endroits, ni faire d'inférence logique
Which information will be collected by NCAs ?	1) The data 2) transparency and double volume cap 3) financial instruments reference data	1) https://www.esma.europa.eu/policy-rules/mifid-ii-and-mifir/mifir-reporting-instructions. 2) The transaction data	1) 2493 2) 500 3) 323	Transaction reporting	The data will be collected directly by the NCAs which may issue // Transaction reporting to be reported by: Investment firms. Start date: 3 January 2018. Reported to: NCAs . OU Transaction reporting (MiFIR Art 26, RTS 22) ... The data will be collected directly by the NCAs ...	Le système ne parvient pas à utiliser un contexte trop éloigné (comme à la question #4)
Which information should be reported to ESMA ?	1) Investment firms 2) Trading venues and Systemic internalisers 3) Trading venues, Approved Publication Arrangements, and Consolidated tape providers	Trading venues, Approved Publication Arrangements, and Consolidated tape providers.	1) 8516 2) 6103 3) 1432	Transparency data AND Double volume cap data AND Instrument reference data	... // Transparency data to be reported by: Trading venues, Approved Publication Arrangements, and Consolidated tape providers. Start date: September 2017. Reported to: ESMA Double volume cap data to be reported by: Trading venues and Consolidated tape providers (upon request). Start date: September 2017. Reported to: ESMA Instrument reference data to be reported by: Trading venues and Systemic internalisers. Start date: Jul 2017. Reported to: ESMA .	En plus du même problème souligné à la question #10 (agglomération des réponses + inférence logique), le système répond totalement à côté de la plaque : pour lui information =/= data
When will instrument reference data collection start ?	1) September 2017 2) Jul 2017	July 2017	1) 22585 2) 12697	Jul 2017	1) Under MiFIR, trading venues, approved publication arrangements (APAs), and consolidated tape providers (CTPs) will have to report data required for the purposes of transparency and double volume cap calculations. ... ESMA plans to start data collection by September 2017 . 2) Instrument reference data to be reported by: Trading venues and Systemic internalisers. Start date: Jul 2017 . Reported to: ESMA.	Contexte trop éloigné
Where can we find additional information?	1) on the technical aspects of the data submission process 2) at the following link 3) the ISO 20022 messages is available on SWIFT's MyStandards web portal	at a later stage in light of the registration process and final ISO 20022 messages	1) 20 2) 17 3) 10	NCAs may issue additional information on the technical aspects of the data submission process at the following link: https://www.esma.europa.eu/policy-rules/mifid-ii-and-mifir/mifir-reporting-instructions ESMA developed its technical reporting instructions and XML schemas on the basis of candidate ISO 20022 messages. Updates may be published at a later stage in light of the registration process and final ISO 20022 messages. Further documentation on the ISO 20022 messages is available on SWIFT's MyStandards web portal.	NCAs plan to start transaction data collection by 3 Jan 2018. The data will be collected directly by the NCAs which may issue additional reporting instructions on the technical aspects of the data submission process that are specific for them and are not covered by the document published by ESMA. Technical reporting instructions and XML schemas can be found at the following link: Further documentation on the ISO 20022 messages is available on SWIFT's MyStandards web portal. // Additional information ESMA developed its technical...	Question assez vague avec plusieurs éléments de réponse possibles partiellement identifiés par le système 1) A bien identifié cet élément de réponse mais ne retourne pas l'info correctement (une reformulation aurait été nécessaire, par exemple: NCAs may issue additional information on the technical aspects of the data submission process) 2) Bonne réponse mais le lien n'est pas contenu dans la réponse 3) Bonne réponse mais il manque le début de la phrase : »Further documentation on... » On remarque que les scores sont très faibles pour les réponses retournées
Is there anything that is not covered by this document ?	not covered by the document published by ESMA	1) not covered by the document published by ESMA 2) The technical reporting instructions (ESMA-2016-1521) provide details 3) ESMA developed its technical reporting instructions and XML schemas 4) Annexed to reporting instructions are XML schemas	9	the technical aspects of the data submission process that are specific for NCAs	The data will be collected directly by the NCAs which may issue additional reporting instructions on the technical aspects of the data submission process that are specific for them and are not covered by the document published by ESMA .	Question indirecte pour laquelle le système identifie le passage contenant la réponse sans retourner la vraie réponse Nécessite une reformulation de la réponse : « the technical aspects of the data submission process that are specific for NCAs » Score très faible
What is not covered by this document ?	data submission process	data submission process XML schemas	28	the technical aspects of the data submission process that are specific for NCAs	The data will be collected directly by the NCAs which may issue additional reporting instructions on the technical aspects of the data submission process that are specific for them and are not covered by the document published by ESMA .	Même question que la précédente mais posée plus directement, cette fois le système retourne quelque chose qui répond à la question mais qui manque de précision
